```
; no cable hack v2
; by phobos2077

;
; to use this hack with USB device you must know it's Vendor ID and Product ID
; you can look it up in Windows Device manager:
; in USB Controllers, open your device, at last tab, browser through dropdown options, there should be
something like "Hardware ID"
; in my case it looks like this: USB\VID_1210&PID_000A
; in this example, you must use VID=0x1210 and PID=0x000A

[general]
; processName may contain parameters
processName=rocksmith2014.exe

; Vendor ID in 0xFFFF format
; Product ID in 0xFFFF format

; Non-USB device
VID=0x0D8C
PID=0x013A

; Lexicon Alpha USB:
;VID=0x1210
;PID=0x000A

; These are original VID & PID of Realtone cable (for reference)
;VID=0x12BA
;PID=0x00FF

; waitTimeout after game started before patching, in milliseconds (1/1000 of second)
waitTimeout=2000

[multiplayer]
; to use multiplayer mode:
; 1) close the game
; 2) run program with -m command line parameter (eg. "rocksmith2014_nocable_pbs.exe -m")
; 3) follow instructions
;

; VID and PID of Player 2 recording device
VID=0x0D8C
PID=0x013A

[offsets]
; these are valid offsets for Crack 3 version of EXE
offsetVID_0=0x012AEE0C
offsetPID_0=0x012AEE14
```

VID es Vendor ID y PID es Product ID

Digamos que esos son tus valores vas a cambiar los 0x0000 por los numeros y letras que te aparecen a vos. Al final te va a quedar como el archivo de texto de la izquierda (el de la flechita)

Averiguas el VID y el PID de tu interfaz (dispositivo) USB y los colocas en ; Non-USB device y este >>>>> "VID and PID of Player 2 recording device".
